Profile Summary

I am a Developer skilled in **JavaScript**, **Python**, **Java** and **SQL**, with a solid foundation in **OOP concepts** and hands-on experience in building responsive, real-world web applications. Strong grasp of **HTML/CSS**, REST APIs, and **Linux**, with a passion for creating user-centric, scalable frontend solutions. Proven ability to build dynamic, API- integrated platforms like **Qtify** (music streaming app) and **Medify** (medical booking system). Strong communication and teamwork skills backed by academic. (please click on the portfolio to view the certificates and live projects)

Technical Skills

Programming Languages: Python, JavaScript(ES6), React JS, Angular JS, HTML5, CSS3 , Tailwind CSS Java, Generative-AI
Databases: MY SQL, PostgreSQL, JSON data, XML,
Developer Tools: VS Code, Chrome DevTools
Frameworks: CI/CD Pipelines, testing Frameworks
Additional Skills: OOPS, Linux, Git-GitHub, GitLab, Rest APIs, Jenkins
Soft Skills: Excellent collaborative & Communication skills with a strong analytical & problem-solving mindset

---

Work experience

Software Development Intern | Hatch-fast Software Labs PVT.LTD **Aug2024-Jan2025**

- Contributed to a key feature of a customer-facing web application using Java and Spring Boot, improving user engagement by 10%.
- Wrote comprehensive unit and integration tests, achieving 95% test coverage and ensuring code reliability before deployment.
- Collaborated with senior engineers in an Agile team, participating in code reviews and daily stand-ups, demonstrating strong teamwork and communication skills.

Projects

Qtify- React Js Music application | Link |

- Developed a web music streaming app with Spotify-like features.
- Implemented dynamic API data rendering for real-time updates
- Designed a responsive UI for seamless cross-device experience

Medify – Medical Appointment Booking Web App| link |

- Built a responsive web app to search medical centers by state and city across the USA and book appointments.
- Implemented location-based filtering using dynamic dropdowns with API integration
- Developed a calendar-based booking system with available time slots for up to one week in advance.
- Created a "My Bookings" page to display user appointments with full Details
- Used Swiper for UI elements and maintained responsive design across devices

Portfolio- Self portfolio web page | Link |

- Built a web page using html, CSS & JavaScript show casing my work and skills.
- Designed a responsive UI for flawless cross-device experience
- Made it a cross-page work model for better understanding

Education

Bachelors of Engineering — **June 2024 | CGPA: 8.01**
Prof Ram Meghe Institute of Technology & Research, Badnera. — ***Amravati, Maharashtra***

HSC — **2020 | 79.90%**
Saraswati Intuitions, Nagpur. — ***Nagpur, Maharashtra***

SSC — **2018 | 86.66%**
Fatima Convent High School, Achalpur. — ***Amravati, Maharashtra***

Achievements

- Received Certified Frontend Product Developer – Crio.Do (2024) Built real-world projects using React.js, Git, and REST APIs as part of a hands-on learning program. Learned scalable frontend design and best practices under mentorship and peer reviews.
- Winner of hackbros Coding Competition: Secured first place in university-level coding competition, showcasing proficiency in algorithms, data structures, and coding skills in languages such as C++, Python, and JS.
- Core Committee Member of the Youth Festival Division level.

Languages

- English, Japanese (N4 pursuing), Hindi, Marathi
